

Innovation Awards: Criteria checklist for evaluation of application

Name of Initiative/Program:

Year project was implemented:

Criteria	Score					Comments
	0	1	2	3	4	
<p>1. Originality and Boldness: The goal of innovation should be an improvement in the process, organization, product, or outcome. Does the Innovation, in the context of the Quality and Innovation Awards, refer to new and unique processes, products, or organizations which are bold, experimental and far-reaching?</p>						
<p>2. Impact on patients Is there evidence that the initiative is meaningful from patient's point of view?</p>						
<p>3. Impact of initiative on stakeholders and processes Is there an impact of the initiative on employees, resources and other stakeholders? Is there an impact on the way in which projects, tasks, duties or/and other processes are accomplished?</p>						
<p>4. Value for money Is the initiative cost-effective? Is there an economic benefit apparent in a reduction of cost and money spent while maintaining quality of care?</p>						
<p>5. Sustainability Is the initiative sustainable and well disseminated/shared throughout the organization? Are there tools and strategies to facilitate the sustainability of the initiative? Are there champions of the initiative throughout the organization?</p>						
<p>6. Scalability Is this initiative capable of being scaled up to benefit stakeholders and/or healthcare processes?</p>						

7. Overall rating of initiative Overall, how would you rate the innovative nature of this initiative?	0	1	2	3	4
